

Global Gear and Machining Quality Policy:

Global Gear & Machining manufactures precision steel gears for automotive, on and off-highway trucks, defense and aerospace, agriculture, power generation, recreational vehicles and general industry, by:

- Prioritizing quality and delivery;
- A commitment to satisfy all customer and legal requirements;
- Continually improving the effectiveness of our quality management system towards zero defects, on time delivery, and operational excellence;
- Promoting product safety, ethical behavior, accountability, prevention of counterfeit and nonconforming product to ensure customer satisfaction and sustained business success.
